

WRAPPED BALE GRABBERS

THE LOGICAL AND ECONOMICAL ANSWER TO YOUR HANDLING AND STACKING OF WRAPPED ROUND AND SQUARE BALES.

Model: W.B.G.

Grabs all sizes of round bales up to 6 feet in diameter from any position.

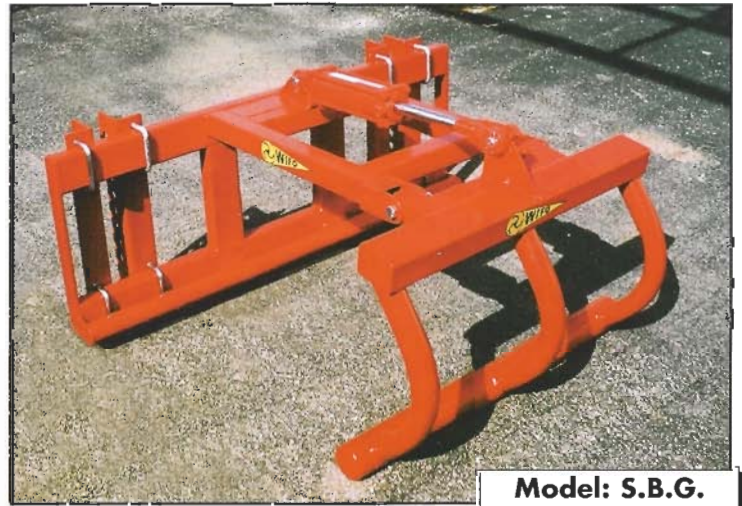

Model: W.B.B.

Model WBG is designed to fit most standard front end loaders and easily adaptable to your quick-tach brackets (plate). Its specially designed arms grasp the bale firmly without damaging the plastic wrapping. Being universal your WIFO Wrapped Bale Grabber will also handle dry bales. For this purpose you can also ask your dealer about the standard WIFO Bale Grabber. (see other side)

Model WBB is designed to grab round bales over top instead of around the bale. Ideal for loading flat bed trailers.

Model: B.K.P.

Model: S.B.G.

A universal grabber designed to handle wrapped square and round bales. Excellent design to stack and load trailers. Opens to 78 1/2" to enable to grab bales from any position or two at the same time. Closes to 27 1/2" to enable to grab bales lengthwise.

The economical way to load and stack large square wrapped bales. Opens completely and closes to 27".

THE WRAPPED BALE GRABBERS ARE ANOTHER EXAMPLE OF WIFO'S OUTSTANDING QUALITY AND WORKMANSHIP.

*Quick attaching plates available for all loader mounted equipment. WIFO uses only Forged Steel Bale Spears - available 32", 38" or 48" length.

Due to ongoing improvements WIFO products may vary from those illustrated.

CAUTION

Because a heavy load can easily tip your tractor over, make sure you keep the load low and as close to the tractor as possible while moving and have front or rear of your tractor properly counter balanced with weights. Since the center of gravity is forward of normal, make sure your load is well under the capacity of the loader.
